

Reagan Run 5K Scholarships Awarded

The Reagan Run 5K Committee recently offered six \$500 Scholarships, three male and three female, for student athletes who were continuing their post-secondary education at a 2-year college, 4-year college/university or trade school. The scholarships were available to any Lee County high school students who had participated in any or all of the following activities: 1) high school cross country, 2) high school track or 3) have participated in one or more road races including a Reagan Run 5K.

The Reagan Run Scholarship Committee is pleased to announce the recipients of the five 2017 Reagan Run Scholarships: Mitchell Dixon, who plans to attend Northern Illinois University, Mitchell Etheridge, who plans to attend Marquette University, Blain Masterson, who plans to attend the University of Wisconsin - Parkside, Sean Masterson, who plans to attend the University of Wisconsin - Parkside and Katie Lawton, who plans on attending the University of Nebraska. Since the committee intended to award six scholarships and since they only received five applications, these five students will receive \$600, \$100 more than advertised, to go toward their educational costs.

The Reagan Run 5K Committee was able to make these scholarships available primarily due to the enormous support of its sponsors as well as the tremendous buy-in by the community and the multitude of participants who have enjoyed the event over the previous 17 races. The committee looks forward to presenting one of the finest road races in the area for the 18th time on Saturday, July 1, 2017.
